

HIL (Head Into Literacy) P.E.L.L. Component Kits

(formerly known as S.T.E.P. Kits)

Interested in meeting the oral language, literacy and math needs of children and meeting federal and state requirements?

Our Head Into Literacy P.E.L.L.™ Train the Trainer and Classroom Component Kits provide training tools for Preschool early language and literacy teacher training. Each kit is designed for use in P.E.L.L.™ based literacy / language staff development activities AND for classroom use in implementing literacy / language programming.

Our kits make staff training fun, consistent and easy to duplicate. Head Into Literacy has minimized the need to search for language and literacy training materials listed in the C.I.R.C.L.E.™ P.E.L.L.™ Trainer and Teacher's Manual.

Each Head Into Literacy Kit comes with the classroom support materials (children's books, manipulatives, games, puppets) which assists the teachers in achieving effective instruction of the Head Start required domains and indicators in language development, literacy and mathematics.

Using the Head Into Literacy™ P.E.L.L.™ Classroom Component Kits enables you to get right down to the business at hand, Training and Teaching!
